R98i/R98e

TANKLESS WATER HEATERS MODEL SERIES R98 (3237FFU/W)

FOR RESIDENTIAL APPLICATIONS

THE ALL NEW HIGH OUTPUT WATER HEATER

Need greater hot water volume? The Rinnai R98 offers our highest maximum output of 9.8 gallons per minute at 237,000 BTUs. With 15-27% more capacity than our R85 series, the R98 is the perfect solution for custom luxury homes with spa tubs, body sprays, and other high-end hot water demands. Whether alone or in combination with multiple units, the R98 is your high output source for endless hot water!

ENHANCED FEATURES — ENHANCED PERFORMANCE

The new high-output unit is a perfect fit for large-sized residential homes

- Hot water capacity of 0.9 to 9.8 GPM (at a 35° F rise); 19,000 - 237,000 BTUs
- Packaged with a Rinnai MC-91 controller
- Internal or external installations
- EZ Connect feature allows 2 units to be connected quickly and easily

NEVER RUN OUT OF HOT WATER

- Endless hot water
- Heats water at a consistent temperature
- Delivers hot water to multiple water sources simultaneously at a constant user-set temperature

SAVE MONEY ON ENERGY COSTS

- Water is heated only as needed when hot water demand is detected

Temperature Rise (°F)	GALLONS PER MINUTE			
	R85i (1 unit)	R98i/e (1 unit)	R85i (2 units)	R98i/e (2 units)
75	4.2	5.3	8.4	10.6
60	5.2	6.6	10.4	13.2
45	7.0	8.8	14.0	17.6
35	8.5	9.8	17.0	19.6
